02 · ABOUT

A DJ on six continents, with a violin in his hands

Seth Schwarz plays the violin into the heart of electronic music. Classically trained from the age of seven, he played for many years in the symphony orchestra in Hoyerswerda, where he was born, until he left to study medicine, and learned to improvise in a jazz band. A night on the dance floor at Fusion Festival in 2009 changed his direction; the following summer he was on its stage.

Seth is a DJ first, and a violinist on top. Behind the decks he builds deep, melodic sets of ambient electronica, organic and melodic house and techno; over them he plays, loops and layers his electric violin through effects in real time, so every set is shaped by the room and the moment. His violin today is an NS Design CR-5, a gift from his mother.

It started in May 2012 with his debut vinyl, the *Magnolia EP* (What!What!). Presenting it live at Charles Bronson in Halle, the club run by Monkey Safari, he found the record thin on its own, so he ran his first electric violin, bought in Nicaragua during a hospital internship, through effect pedals and played over it. Since then he has written more than 150 productions; *Elysium* alone layers some 70 hand-played violin takes. He has collaborated with Einmusik, Be Svendsen, Mollono.Bass, Monolink, Monkey Safari, Stereo Express, Beatamines and YokoO, been remixed by Rodriguez Jr., Gabriel Ananda and Wankelmut, remixed Ben Böhmer, and released on All Day I Dream, Katermukke, Einmusika, InFine, Bar 25 Music, 3000 Grad, Lost Diaries, Abracadabra and Do Not Sit On The Furniture. In 2024 he founded his own label, NASAJA, home mainly to co-productions with artist friends.

Seth has toured Europe, Australia, Japan, India, the Middle East, Africa and North, Central and South America, playing festivals including Burning Man, AfrikaBurn, Midburn, Boom, Tomorrowland, DGTL, ADE, Mystic Garden, The BPM Festival and Fusion. Burning Man has become a second home: in 2024 he played 26 sets there in one week, and in 2026 he marked ten years on the playa. Add ten AfrikaBurns and a Midburn, and that makes twenty burns.

Away from the stage, Seth is a radiation oncologist with a doctorate on glioblastoma brain tumours. His medical work shapes his music: he believes in the power of sound, and he still brings his violin to patients. He teaches medical students at the university clinic in Halle, and is founder and CCO of WeR1, a music platform built to pay artists more fairly.
