SETH SCHWARZ

> Deep, melodic DJ sets of organic and melodic house, lifted by improvised electric violin. From Burning Man to Tomorrowland, now in your room.

01 · THE ARTIST

A world-class DJ. A classical violinist. A doctor.

Behind the decks, Seth Schwarz builds deep, melodic sets of organic and melodic house. Over them he plays his electric violin live, looping, layering and bending it through effects in real time, so no two sets are ever the same. He picked up the violin at seven, played for years in the symphony orchestra in his hometown of Hoyerswerda, learned to improvise in a jazz band, and has called Burning Man a second home for ten years.

Away from the stage he is a radiation oncologist, with a doctorate on brain tumours. After years of seventy shows a year, he now picks carefully where he plays, and for whom.
